SUMMER 2021

DEAR LADIES AND GENTLEMEN,

are you also in a better mood when the morning rays of the sun pull you out of bed into days full of flowers, colours and aromas? Now that we have become accustomed to spending most of our time in the comfort of our home, the colour of nature must not escape us. Believe, that as soon as you wear something coloured, everything around will light up and go easier.

Ladies, celebrate ever longer days joyfully, in a romantic dress playing with colours and strewn with flowers or a small pattern of leaves. If you are not a complete flower fairy, you will also shine in a coloured stripe or a polka dot. If you prefer sports fashion, bet on minimalist white trainers.

Gentlemen, don't be afraid of colours either. Even a light stripe on a sweater will do its magic. However, we also offer our regulars in the form of earthy colours.

The designers of the new M&S collection did not forget about the children either and transferred the whole jungle onto fabrics - zebras, tigers, sloths and giraffes reign supreme on spring dresses, T-shirts, sweatshirts, joggers and pyjamas. It's time to unleash your imagination and step into the next days in full (animal) strength!
